Since just June the Eagle Steel Mills at Lexington, O., have been entirely upon their feet, the extent of 1,500 tons of sheet iron and 4,000 tons of bar iron, which stock is left on their hands. The sheet iron has decreased in value \$9 per ton and the bar iron \$7 per ton.

In the present Congress, elected in 1892, there are 215 Democrats and only 120 Republicans. Let us see what would have been the effect of a general disaster to the Democrats, similar to that which the accident of circumstances confined on the day of the election to one district of New York.

There are nine Congressmen from Alabama, all Democrats. Estimating by the vote in the New York Fourteenth, the Democracy would have lost two districts in Alabama in the Fifth and the Seventh.

KANSAS has six Congressmen, all Democrats. These six would probably have been held by the Democracy.

CALIFORNIA has three Democrats in a delegation of seven. The Democracy would have held two of them and lost one, namely, in the Fourth District.

MISSOURI, the Missourians, have disappeared.

SOUTH CAROLINA's two are now Republicans.

TENNESSEE's eight Democrats and two Republicans would have become six Democrats and four Republicans. Snodgrass of Sparta and Enloe of Jackson would have gone down. McMillan, the great income taxer, would have barely pulled through.

TEXAS' solid delegation of thirteen Democrats might not have been affected.

THE probability, however, is that the Democrats would have lost the Fourth and Tenth. We reckon the state as still holding.

VERMONT's two Representatives are Republicans.

VERMONT is solid now, ten Democrats.

THE Democrats in that state would have lost the Fifth and Tenth Districts.

WASHINGTON's two are Republicans.

WEST VIRGINIA is represented in the Fifty-third Congress by the Hon. William Lightweight Wilson and three other Democrats. Under the deadly percentage of loss established by the Quigley-Brown contest, every Democrat of the four, Wilson included, would have been defeated.

WISCONSIN has now six Democrats to four Republicans. The Democrats would have saved two of their members under the conditions of this estimate.

FINALLY, WYOMING, one Democrat

has been replaced by a Republican.

HERE, then, are the summary and the lesson simultaneously presented:

Democrats in present Congress.....215

Republicans in present Congress.....129

Populists in present Congress.....13

TOTAL.....356

NECESSARY for a majority.....179

Democratic margin over a majority.....36

But if the same tidal wave of protest against Democratic cowardice, treachery and incapacity at Washington, as swept across the Fourteenth New York District several weeks ago, had affected every district in the country which is now represented by a Democrat, the result would have been that which is here set forth:

DEMOCRATS in new Congress.....120

REPUBLICANS and POPULISTS.....336

TOTAL.....356

NECESSARY for a majority.....179

Democratic margin over a majority.....36

Such is the lesson, and remember, if you please, that the percentage of loss which we have suffered as yet is but a fraction to come to measure the reversal of public sentiment throughout the country, as occasioned by the leadership of the Cleveland Administration and its agents in Congress, was incurred on that Tuesday in a New York City District, famed for the perfection of its Democratic organization, the steadfastness of its Democratic habits, the loyalty of its faith, and, under any honest and sane leadership in National affairs, the absolute certainty of its Democratic majority, sufficient and with thousands to spare!

*The Rule Spread.*

A special train from Cincinnati says as the Northern and Southern on the C. & O. and the W. & S. coming into this place Friday morning at 10 o'clock the rails spread and several cars and one coach were derailed. The boxcars are demolished, but luckily the coach was not badly broken up, and the passengers all escaped without being seriously hurt. They were well shaken up, however.

The accident happened about 100 yards

from a frost line, and, if delayed a few seconds more, would doubtless have cost several lives. This is the first accident of any importance that has happened for years on this road.

## WILSON BILL RESULTS.

### ITS PASSAGE PROVOKES CURIOUS POLITICAL FORECASTS.

What is Likely to Happen in the Immediate Future—A Democratic Party on Democratic Prospects.

no Democratic Representatives, and the situation in those states would not be affected.

NEW JERSEY now has six Democrats to two Republicans. Here again there would have been a clean sweep. Gelsenhaler in the Third District, Cornish in the Fourth, Cadmus in the Fifth, Thomas Dunn English in the Sixth, Fielder in the Seventh and Dunn in the Eighth would all have had to make way for Republicans.

Coming now to the great state of New York, with its twenty Democrats and fourteen Republicans in Congress, we find that the percentage of change in the Fourteenth District would have carried with it the First, heating Covert; the Second, heating Ryerson; the Sixteenth, heating Haines; the Twentieth, heating Schermerhorn. The delegation would have stood twenty-one Republicans to thirteen Democrats.

In North Carolina, where there are eight Democrats and one Republican, the Democrats would have lost the First, Second, Fourth, Eighth and Ninth, and probably the Third and Seventh Districts.

North Dakota is represented by a Republican.

In Ohio the Democrats have eleven districts out of the twenty-one. They would certainly have lost the Third, Ninth, Twelfth, Fourteenth, Sixteenth, Eighteenth and Twentieth, including Outhwaite's, Harter's and Tom Johnson's. The delegation would then have stood seventeen Republicans to four Democrats.

OREGON has now two Republicans.

In Pennsylvania, where there are now ten Democrats and nineteen Republicans, the result would have been six Democrats and twenty-three Republicans, the latter taking the lead in the Twelfth, Fourteenth, Sixteenth, Eighteenth and Twentieth, including Daingerfield, Indiana, and two others.

Honda Island, two Democrats would have disappeared.

South Carolina's delegation of six Democrats and one Republican would not have been affected.

South Dakota's two are now Republicans.

TENNESSEE's eight Democrats and two Republicans would have become six Democrats and four Republicans. Snodgrass of Sparta and Enloe of Jackson would have gone down. McMillan, the great income taxer, would have barely pulled through.

PUBLIC LEDGER CO.  
THOMAS A. DAVIS.  
Mayville, Ky., Jan. 1st, 1851.

A PROVIDENCE (R. I.) chiropodist made this statement recently: "People don't even have corns under this Administration."

THE Populists have demanded that the Government shall loan them money at 2 per cent. As the Government, under the present Administration, has to borrow money on 5 per cent. bonds, it looks like Uncle Sam would be a loser if he complied with the requests of the Populists.

In the Senate Mr. COCKRELL presented a memorial of the St. Louis Merchants' Exchange declaring that the present stagnation of the country is due to the uncertainty of Congressional action on the Tariff question, and praying that the matter may be settled as speedily as possible. "I am glad to see by this memorial," said the Senator, "that these petitioners recognize the blunder they made when they attributed all of the distress of the country last summer to the Sherman Silver Law."

THE LEDGER has repeatedly assured its readers that a reduction of wages paid to workingmen was certain to follow a reduction of the Tariff to anything approximating a "revenue only" or Free-trade basis. This has been so persistently denied by Democratic Editors that many of them have actually come to believe they are telling the truth.

Perhapse as striking an illustration of the absolute falsity of their claim as can be found is set out in this dispatch from a recent issue of The New York Times:

HAVERHILL Mass., Feb. 3.—Congressman STEVENS's woolen mills in this city will start up on full time next Monday, employing 100 workmen. A reduction of 15 per cent. in wages goes into effect at that time.

MOSES T. STEVENS, Democratic Representative from the Fifth Massachusetts District and a member of the Ways and Means Committee during the construction of the Wilson Bill, has been one of the most rampant and rancorous advocates of free wool in Congress. A woolen manufacturer himself, he has continually given aid and comfort to the enemies of the woolen industry, knowing that the abolition of the Protective Tariff on wool meant the total destruction of the American sheep raising interest, as he has done all that blatant misrepresentation could do to bring this about. The wholesale slaughter of American sheep and the ruinous fall in the price of American wool are one result of the demagogic of Mr. STEVENS and his fellows. The

entire down of wages are.

STEVENS knew when he assisted the Bourbons from Southern backwoods villages to framing the Wilson Infamy that it meant the permanent closing of half the woolen mills in America and a sweeping reduction of wages in the remainder. He knew that this about that meant an instant reduction in the wages of workingmen, whose interests as an employer and a legislator he was in honor bound to protect. Yet he was too cowardly to vote against the measure to rob American labor. He dodged the vote in the House, thereby incurring the contempt of decent men of all parties—and then cut down the wages of his men 15 per cent.

Advocates of "Tariff reform" have vociferously assured workingmen for years that the reduction of Tariff did not mean the reduction of wages. The action of STEVENS is an instructive commentary on this favorite Free-trade lie. The wage earners of the Fifth Massachusetts District should see to it that this demagogue does not have an opportunity to make war upon their interests in another Congress, and they will.

## The Pollard-Breckinridge Case Will Be Called.

The Defense Wanted the Hearing Postponed a Few Days Later.

Miss Hayes Will Soon Have a Choice to Face Her Charges Against the Recently Congressmen—Witnesses for the Defense Number About 100.

WASHINGTON, Feb. 19.—The Pollard-Breckinridge trial has been set for Thursday morning.

Judge Bradley, of the supreme court of the district of Columbia, Saturday morning listened to the preliminary arguments on the case on a motion submitted by the defense for a further postponement.

The courtroom was crowded with lawyers and the public man. Mr. Breckinridge was present a person, but displayed no outward signs of interest in the arguments. Miss Pollard was not present.

Mr. Breckinridge's counsel asked the trial to fix a day for the trial not later than Feb. 25.

Miss Hayes had been called to appear to give attention to the preparation of testimony, and that important depositions from the non-resident witnesses had not yet been obtained, although effort was being made to get them.

At 11 o'clock she saw them go to the front door of the post office and try to find them. It seems they produced tools and set to work to bore around the corner. Brown stealthily approached and while the others were looking at his shotgun, one of the robbers fell to the ground and the other fled south. Brown gave chase and shot at the fellow as he ran. The fleeing burglar fired at Brown several times with a revolver.

Brown, a young farmer, a mile south of town, Brown lost sight of his man, who disappeared in a large sheep shed. The farmers in the vicinity were aroused and at once instituted a searching party, but did not succeed in discovering the man wanted.

He is a member of a number of farmers' organizations in Trenton, fully expecting to find the other man dead in front of the post office, where he had been shot. They were desirous in this for the wounded man had disappeared.

In a short time the entire population of the village turned out and joined in the search. At last they found him, lying on the ground, his right arm severed from the shoulder. He was a trifle dazed from the post office to the depot, showing the man had been badly wounded. The trail was lost at the railroad track and it is thought the culprit escaped by catching a freight train that went north about midnight.

Constable Mike Flanagan arrested a stranger on suspicion Saturday morning, and took him to the Hamilton jail. Postmaster Elsner had several hundred dollars in the post office till over night, and is very thankful that the two men did not break into the office, which located the place. Officers in all the valley towns have been notified of the affair, and are keeping a sharp lookout for the characters.

## WY BROOKS

For a Supreme Attempt to Rob a Hotel One is Badly Wounded by a Cutlass.

MIDWESTON, Feb. 19.—Trenton, six miles south of this city, is in a state of great tumult over any attempt to rob the post office there Friday night by two men who made their appearance in the village during the afternoon.

They stopped at Ely Song's hotel for supper, and in the early part of the evening aroused suspicion by attempting to get Fred Zimmerman, a half drunken man who was displaying a roll of money, to go out with them. The landlord, and A. E. Brown prevented Zimmerman from falling into their clutches by taking him off to bed. The strange actions of the strangers caused Brown to watch them. They went from place to place about town, and the watcher became suspicious. He followed them to another kind. Arming himself with a shotgun he awaited developments.

About 11 o'clock he saw them go to the front door of the post office and try to find them. It seems they produced tools and set to work to bore around the corner. Brown stealthily approached and while the others were looking at his shotgun, one of the robbers fell to the ground and the other fled south. Brown gave chase and shot at the fellow as he ran. ## A MISSING MAN

Found Wandering in the Woods of Arkansas.

GUNNISON, Ark., Feb. 19.—A canal project which will irrigate entire northern portion of the state, which I said to be in contemplation by a number of capitalists in Chicago, New York, Boston and London. The proposed canal is designed to immensely facilitate the passage of vessels from Chicago, Milwaukee and other northern western cities to the Gulf of Mexico earlier, as necessary the present long route through the straits of Mackinaw, Lake Huron, St. Clair river and thence down the Detroit river to Lake Erie. The plan now said to be under serious contemplation is to construct a canal connecting the lakes of Michigan from the eastern shore of Lake Michigan to either Detroit or Toledo. O. Should either of these plans prove to be feasible, it will result in one of the most gigantic enterprises of the century.

A number of capitalists from Chicago, New York and Boston, as I said to stand ready to back the project to the extent of \$300,000,000, and it is also said that the English capitalists who are interested in the Central Pacific road have also shown a decided disposition to render financial aid in proportion to the new enterprise those most intimately connected with the scheme are unwilling to divulge their plans or to allow the name, but it is stated on reliable authority that preliminary surveys of several proposed routes for this important canal have been made by the U.S. and the majority of the acts has already been vouchered for eminent engineers. Among those who are stated have promised their support are Nathaniel Thayer, John, known capitalist of Boston; Thomas Howell of New York; George Newell, Frank Sturgis of the New England League, A. Sturgis of the connected w and a number of others who are anxious in the various railway enterprises in the western states.

FLORENCE BLYTHE

Engaged in the Big Lawsuits Over Her UNFORTUNE.

As a Prison Hospital—The Ohio That Being Used in Columbus, O., Feb. 19.—Dr. W. T. Rowles, prison physician, in an interview with the Times, has severely criticized the "such and as the prison rules enforcement, which is just over the prison kit," and is reached by the fumes there.

There is just one large hospital, and all the inmates whether they have infectious diseases or not are together. A hundred guards visit the hospital. A day, and must carry the disease along all over the prison, and out to the families. Prisoners convalescent from the mumps (there are 40 cases now) the hospital is set to work in the shop. Prisoners suffering from constitutional diseases are not allowed without the advice of the physician, even in a very severe manner. According to Dr. Rowles, the prison physician has not much to say about the sanitary matters there.

## SH'E'S A MASON.

Mrs. Lease Claims Membership in a Ft. Scott Lodge.

Lodgemen Accuse Her of Fraud in Obtaining Secrets.

She Says If Masonry Is Good for Men It Is Better for Women.—The Plucky Woman Who claims to be a Mason and Form Female Lodge.

TOPEKA, Kan., Feb. 19.—Mary E. Lease claims to be a Mason, and has made the startling statement that she proposes to form a female lodge throughout the country. Mrs. Lease wears upon her bosom, suspended by a gold chain, a Knight Templar charm, with the usual keystone of the chapter on the reverse side, and she declares that she is as much entitled to be a Mason as any man who belongs to the Temple.

She says her commandery is Hugh de Payne, of Ft. Scott, Kan. She says she knows all the signs, grips, signals and pass words of the blind lodge, chapter and commandery, and that she is the only woman throughout the country.

plar charm, with the usual keystone of the chapter on the reverse side, and she declares that she is as much entitled to be a Mason as any man who belongs to the Temple.

She says her commandery is Hugh de Payne, of Ft. Scott, Kan. She says she knows all the signs, grips, signals and pass words of the blind lodge, chapter and commandery, and that she is the only woman throughout the country.

Mrs. Lease made this statement in conversation with a reporter, in which she outlined some of her future life's work.

She said that she had other plans than politics and the lecture field. With this she launched into a discussion of women's rights, and declared that if masonry is good for men it is much better for women, as they are more useful of protection than men. She says once by giving a sign of the order she was saved from personal violence, and from that moment she resolved to devote herself to the welfare of humanity.

Mrs. Lease admits that it is contrary to the Masonic rule for women to become Masons, but she declines to state how she gained the secrets of the order.

She claims that Masonry is good for women, and that she is the only woman throughout the country.

The Masons, of course, decide her claims, and say that she is not a Mason, and if she has obtained the secrets of the order it was by undue means.

To a Mason Mrs. Lease offered to give her signs grip and pass words, but she refused. He said to her that she would have enjoyed the present when she was made a Mason, as when Mrs. Lease smiled and said: "It was real fun."

"NOT INDORSED."

Lease Expected to Be the Report on Hawaii Committee May Disappoint.

Washington, D. C., Feb. 19.—The Senate committee on foreign affairs have completed the taking of testimony in the Hawaiian matter, and the great report is ready to be given to the full committee. Contrary to the expectations of the Senate, the report seems to be excellent authority, that the report supports the American ideas of the Harrison administration, and has no fault to find with the actions of its representatives at Honolulu. Examiner John L. Stevens.

The only members of the subcommittee who seem to be in agreement with the Senate's findings are Senator James and Senator Morgan and Daniel.

Washington, D. C., Feb. 19.—The Senate committee on foreign affairs have completed the taking of testimony in the Hawaiian matter, and the great report is ready to be given to the full committee. Contrary to the expectations of the Senate, the report seems to be excellent authority, that the report supports the American ideas of the Harrison administration, and has no fault to find with the actions of its representatives at Honolulu. Examiner John L. Stevens.

The only members of the subcommittee who seem to be in agreement with the Senate's findings are Senator James and Senator Morgan and Daniel.

JAMES E. GILLESPIE and family moved from Dover to Mt. Sterling.

BRO. MARSH, here's a "croak" from The Ironot Republican:

The 10 cent per cent reduction proposed by the Kelly Nail and Iron Co. Friday to take effect next Monday has been accepted by all employees.

And here's another "howl" from the same paper:

The striking nailers boys of Belfont Nail Mill held a meeting and decided to accept the 10 cent per cent reduction and to go to work.

JON THOMPSON, a man of family, aged about 38 years, living near Fox Springs, was killed Wednesday morning by being struck with a limb of the tree which he had cut down. Mr. Thompson had gotten safely out of reach of danger as he thought but the falling tree struck another and a large limb was broken off and hurled toward Mr. Thompson, striking him in the face and rendering him insensible. He was carried to his home by friends, and died about four hours after the accident.

A SMALL WRECK.

Occurrences On the C. and O. Yesterday Afternoon Near the City.

A small sized wreck happened about 2 o'clock yesterday afternoon on the C. and O. track near Dietrich's Grove.

The local freight train due here about 2 o'clock was coming in and stopped near the place mentioned to do so, switching when a loaded box car was thrown by a misplaced fire to its side. Another box car just behind it was also pretty badly damaged.

The wrecking crew was called here from Cincinnati, arriving about 5 o'clock and replacing the wrecked car.

It was completely demolished and in its jump from the track fell directly across the main track.

The crew from Cincinnati consisted of about twenty-five men.

SKIFF THIEVES CAUGHT.

A couple of Ducks Captured in Greenup and Brought Here.

Deputy Sheriffs D. B. Warnock and James E. Morton of Greenup were in the city Saturday.

They constitute a pair of clever geniuses, but both being Republicans, it couldn't be otherwise.

And they're feeling pretty good over having delivered to Jailer Kirk a couple of pretty slick ducks.

Some weeks ago John F. P. Tolle of this city lost a good skiff.

A few days ago it turned up at Greenup possession of Milo Allensworth and Lagan.

A name was on the skiff, and heard where it was, may be identified.
